Counsel for Amgen,

The Court recently issued a decision granting Regeneron's preliminary injunction motion against Formycon. Regeneron and Formycon have not yet agreed on a version of the decision that redacts all confidential information. Formycon, however, has provided Regeneron with a copy of the decision that redacts information that Formycon contends is confidential, and Formycon consented today to Regeneron's production of this version of the decision to Amgen. Regeneron therefore provides this version of the decision as an attachment to this email. Please note that this version of the decision contains unredacted Regeneron confidential information, and therefore it should be treated as Confidential under the Protective Order governing this litigation.

Best,
Andrew
